Mobile Business Tools

InsuranceApplication.com

Mobile Applications, Phone Quoter, and AppDrop are available to access on the Insurance Application website!

Check out some of the highlights:

Mobile Tools:

- Mobile Application - Complete applications online or from your mobile device with the Mobile WebApp
- Phone Quoter - Run illustrations/quotes for multiple products from your mobile device
- AppDrop - Upload scanned applications directly to New Business for processing

Functionality:

- Eliminate incomplete applications & missing forms
- Reduce processing delays
- Accurate premium / death benefit calculations
- Can be used on your tablet device
- Agent friendly on-line application process
- Applicants can sign the app on the screen using a stylus pen, or finger
- Partially completed applications can be saved to complete at a later time
- Attach & send images of supplemental documents (such as void checks)
- Transmit application and all related documents electronically at the click of a button

Requirements:

- Designed for tablet devices
- Internet connection
- Face to face sale with the client
