INVESTMENT LIFE INSURANCE COMPANY

# WHO IS AMERICAN EQUITY

In 1995, David Noble retired...for 3 days. He had spent almost a half century in the insurance industry and did not like how companies were losing touch with their customers and offering poor service. He formed a company that was going to focus on 2 crucial components: GREAT SERVICE AND SLEEP INSURANCE. To capitalize and give a strong foundation, David started by putting his net worth on the line and borrowed money on top of it. Next, he assembled a management team that had a minimum of 5 years working experience with him. He was able to hand pick some of the best talent in the industry who shared his passion for insurance. Additionally, each member was required to invest some of their own net worth into the company and have "skin in the game."

(a) In addition to net income, we have consistently utilized operating income, and operating income per common share—assuming dilution, non-GAAP financial measures commonly used in the life insurance industry—as economic measures to evaluate our financial performance. Operating income equals net income adjusted to eliminate the impact of net realized gains on investments, including net OTTI losses recognized in operations and related deferred tax asset valuation allowance, (gain) loss on retirement of debt, fair value changes in derivatives and embedded derivatives, counterparty default on expired call options, and the net cost to settle a class action lawsuit. Because these items fluctuate from year to year in a manner unrelated to core operations, we believe measures excluding their impact are useful in analyzing operating trends. We believe the combined presentation and evaluation of operating income together with net income provides information that may enhance an investor's understanding of our underlying results and profitability.

# REAL BENEFITS OF INDEXED ANNUITIES

A history of American Equity's Index-5\* (9/30/98 - 9/30/11)

This history of American Equity's Index-5 Indexed Annuity demonstrates the powerful benefits of Indexed Annuities. The Index-5 did exactly what it was supposed to do... gave the Contract Owner the opportunity to accumulate value based on the appreciation of the S&P 500° Index, without the risk of loss of Premium in years when the S&P 500° was negative. All of this supported by a Minimum Guarantee.

# THIS IS NOT AN ILLUSTRATION. THIS IS A DEPICTION OF AN ACTUAL POLICYHOLDER'S INDEX-5 ANNUITY.

These results should not be an indication that Indexed Annuities will outperform the S&P 500°. This simply demonstrates the effectiveness of Indexed Annuities in years when the S&P 500° was negative.

\*This graph is based on actual credited rates for the period shown on the Index-5 product which is no longer available for sale.

Past performance is not an indication of future results. Please call your American Equity Agent for new product information. Check out product disclosure for specific information.

Surrender Charges apply to surrenders or withdrawals taken in excess of the free withdrawal provision during the Surrender Charge Period. Participation Rates apply, may change annually on Contract Anniversary.

Neither American Equity Investment Life Insurance Company nor any of our agents give legal, tax or investment advice. Consult your own personal advisor regarding these matters.

Indexed Annuities are products of the insurance industry and are not guaranteed by any bank, or insured by the FDIC. S&P 500° index does not contain dividends.

# **RED SHIRT FRIDAY TRADITION**

American Equity employees show their respect for the courageous men and women serving in our armed forces by wearing a red shirt each week on Friday. Since the 9/11 tragedy in 2001, the tradition of wearing a red shirt to work has grown to the point where Fridays are a sea of red clothing around our West Des Moines office. That even includes Executive Chairman David Noble, as this photo shows.

Red Shirt Fridays - it's become a tradition here now, and a sincere sign of our company-wide support for Americans who are serving their country and putting their lives on the line to help assure our freedom and security.

# **CLIENT APPRECIATION EVENTS**

In 2010, American Equity became the first major life insurance company to offer client (policyholder) appreciation events. At a time of some of the worst financial unrest in history, American Equity has made it a priority to assure our clients that our company is financially sound and their retirement dollars are safe. Since inception, American Equity has never lost a penny of policyholder funds due to market volatility. Now that's Sleep Insurance!
