Whole Life Insurance Protection for the Future

PLAN HIGHLIGHTS

COVERAGE THAT INCREASES AS THE NEED FOR LIFE INSURANCE INCREASES

Life insurance protection is something we all need, regardless of our age or stage in life. Setting up a lifetime of coverage for your children and grandchildren may be one of the most important things you'll ever do for them. In addition to the death benefit, one of the advantages of purchasing life insurance at an early age is that it can help protect future insurability.

- Available for ages 14 days to 17 years, in face amounts of \$5,000 to \$30,000
- Whole life – policy matures at age 100
- No medical examination required
- Rates never increase with age
- Benefits never decrease
- Cash value that builds over time
- Additional coverage may be purchased in the future without evidence of insurability
- Easy payment options

GUARANTEED INSURABILITY PROVISION

While the policy is in force, you have the option of purchasing an additional whole life policy on the insured on each of several dates, without evidence of insurability. The dates are the policy anniversary

dates following the insured's 30th, 33rd, 36th and 39th birthdays. The face amount of the additional policy may not exceed the face amount of the original policy purchased. A reminder will be sent 60 days prior to the first option date. If you wish to apply for an additional policy, you must complete the application and pay the first premium prior to the option date. If you do not exercise this option on the first option date, you will not be eligible for any future options.

POLICY EXCLUSIONS

Instead, the policy premiums paid will be returned, minus any loan not repaid. In MO, benefits will be paid for all causes of death unless evidence shows that suicide was intended at the time of purchase.
