Why plan for the future?

Like many people, you've probably set aside money over the years to pay for the important events in your life: a new house, a dream vacation, college tuition for children and maybe even a wedding. Planning ahead was a good idea because you could be sure the money would be there when needed.

Final Expenses are no different...

Life insurance is one of the ways you provide for your family, planning ahead with coverage to help with final expenses such as funeral and burial costs, medical bills or outstanding debt. Your family depends on you to help meet their needs and make good decisions about the things that affect their lives.

Don't leave your family with bills to pay.

A funeral today can easily reach over \$9,500 when the purchase of cemetery property and a grave marker are included.* Medical bills, legal costs and other final expenses can add significantly to the financial burden.

Peace of mind protection.

Choose this affordable permanent whole life policy with guaranteed coverage to provide extra security for your loved ones. By prefunding your final expenses today, you can prevent having to place the financial burden on those closest to you and you can be assured that the money will be there to help cover the costs. Give your family the gift of peace of mind.
