Helpful Tips

When completing a life application with your client, the plan of insurance section should include only the insurance plan name, not the rate classification. For example, plan of insurance should be listed as Custom Guarantee® universal life insurance, not Custom Guarantee Super Preferred Non-Tobacco.

North American will automatically underwrite each case for the best possible rate classification. Inclusion of the rate classification on the policy application, which the applicant may or may not qualify for, may result in the issue of a policy amendment. To help avoid the issuance of a policy amendment, which requires the client's signature, please do not include the rate classification on the policy application.

Requirements for Tobacco Underwriting Classifications

ADDvantage, Builder IUL, Custom GrowthCV, Custom Guarantee, Custom TermGUL, Guarantee Builder IUL, Rapid Builder IUL, and Survivorship GIUL

PREFERRED TOBACCO

- All requirements needed for the Preferred Non-Tobacco class for the appropriate issue age.
- Tobacco Usage: Tobacco use allowed.
- No diagnosis of chronic bronchitis.
- No diagnosis of chronic obstructive pulmonary disease.
- No diagnosis of arteriosclerotic vascular disease.

STANDARD TOBACCO

- All requirements needed for the Standard Non-Tobacco class for the appropriate issue age.
- Tobacco Usage: Tobacco use allowed.

Substandard

Table ratings are available for both medical and non-medical reasons and vary by product and issue age. Please refer to the product marketing guide for issue ages, underwriting classifications and table ratings.

- **Non-medical flat extras (all products)**
 - May be applied to all rate classes except Super Preferred NT, Preferred NT ages 71+, and Preferred TB ages 71+ (and Standard NT and Standard TB for ages 86+ on Survivorship GIUL).
- **Medical flat extras (all products)**
 - May be applied to the Standard Non-Tobacco and Standard Tobacco rates (except for ages 86+ on Survivorship GIUL).
- Temporary flat extras are non-commissionable.

Special Considerations

- **Foreign Nationals** – U.S. residence for at least the past two years with intent to remain in the U.S. permanently is required in order to be considered for coverage. We require that the proposed insured have either a Green Card or hold one of the following temporary visas: H1B/Specialty Worker, L1/Intracompany Transferee, or TN-1/NAFTA Visa. We also require a social security number due to the U.S. Patriot Act. In addition, we also require that coverage amounts be supported by U.S. income or assets.
- **Foreign Residence & Travel** – U.S. citizens making short trips out of the country for business, pleasure, or educational purposes to non-hazardous areas are usually acceptable risks. Contact Underwriting for those making longer trips or who may be residing outside of the U.S. If an offer can be considered, facultative reinsurance may be required.
- **Medical Examinations** – All medicals must be performed by approved paramedical facilities providing both paramedic and MD exam services. Under special circumstances, exceptions can be made by the underwriting team. Refer to the list of approved paramedical facilities, assigned according to your underwriting office.
- **Multiple Occupations** – List all occupations on the application. The occupation involving the greatest hazard will determine the classification.
- **Non-Medical** – Non-medical insurance is only available for ages 0 through 15 with face amounts of \$250,000 or less. For amounts above \$250,000 contact Underwriting for medical requirements.

Financial Underwriting

PERSONAL INSURANCE

Personal insurance includes coverage meant to be income replacement and/or to maintain an estate. Purposes of Personal Insurance include mortgage redemption, debt repayment, funds for final expenses and burial, family maintenance, estate preservation, estate and inheritance taxes, educational funds and charitable bequests.

Income Replacement

Application intended to cover income replacement needs may be considered according to the age and amount guidelines listed below. Earned income includes salary, wages, tips, regular bonus, regular commission, deferred compensation, and other employee benefits that are the direct result of the proposed insured's effort and abilities that will cease at their death. Where income fluctuates from year to year, use a three year average.

Ages	Income Multiples*
20-30	30 x
31-40	25 x
41-50	20 x
51-60	15 x
61-70	10 x
71+	5 x

* Factor multiplied by earned income.

Requirements:

- For risk amounts of \$2,000,001+, a Financial Questionnaire.
- For risk amounts of \$5,000,001+, a Third Party Financial Report.

Estate Preservation

Use this estate preservation formula to determine amounts that will generally be underwritten on the basis of net worth.

Formula: (Estate value appreciation at interest rate of 7.5%) x (1/2 of life expectancy) x (maximum tax rate of 50%)

Requirements:

- Cover letter explaining the purpose of the insurance, the reason for the amount applied for and how the proposed insurance solution will meet the client's needs.
- A Financial Questionnaire.
- For risk amounts of \$5,000,001+, a Third Party Financial Report.

Juvenile Coverage

North American's death benefit guidelines are as follows:

- \$250,000 for pre-high school age and younger (minimum age 15 days)
- \$500,000 for high school through college ages

The primary underwriting principle we follow is: What is the financial loss to the beneficiary should the child pass prematurely? We understand investment, tax-free accumulation, and money-purchase concepts; however, they are secondary considerations and have limited impact on our decision.

Requirements for these death benefits:

- Both parents are insured for twice the child's death benefit. Please list this information on the agent's report or cover letter.
- All siblings are insured equally—list names and death benefits on the agent's report or cover letter.
- Applications for minors must be signed by the parent or guardian with whom the child lives on a regular basis.

Cover letters are required to explain the following cases:

- If both parents are not insured for twice the child's death benefit.
- If all the siblings are not insured equally.
- If the death benefit is over the above guidelines, explaining the additional financial loss to the beneficiary.
- For grandparent-owned insurance, list each grandchild and their death benefit as well as the parents' in-force insurance. A parent's signature is required on the application. Please consult with the underwriter as necessary.

Final decisions will be made by the underwriter based on all factors of the case.

BUSINESS INSURANCE

Key Person Coverage

Coverage amount may be up to 10 times the annual income derived from the business covered. Coverage amount is dependent upon the type of business and applicant's duties.

Requirements:

- Financial Questionnaire demonstrating income derived from the business being covered.
- List of other key persons and their coverage in favor of the business.
- For risk amounts of \$5,000,001+, a copy of business financials.

Buy/Sell or Stock Repurchase Coverage

Use this formula to determine the appropriate coverage amount.

Formula: (Ownership %) x (Value of the Company)

Requirements:

- Cover letter explaining the purpose of the insurance and how the amount applied for was determined.
- Details of buy/sell agreement and percentage of ownership in the business.
- Market value of the business with supporting corporate financials.
