

For the Phoenix Product(s) below submitted through Phoenix Life Insurance Company and PHL Variable Insurance Company, total compensation paid on deposits will be split between Distributor, Producer and Representatives as follows:

- a. The Individual or Entity Receiving compensation under this Schedule shall be set in the hierarchy as the **Level 7**.
- b. Total Compensation paid to a specific level will be calculated as the difference between the rate shown in the grids below for that level and the rates shown for the next level beneath it, provided that there is a Producer assigned to that level.
- c. In the Event that a Producer level does not exist within a specific hierarchy, that level's compensation shall be paid to the next highest level. The compensation paid to that next highest level will be calculated as the difference between the rate in the grids below for that level, and the rate for the next level beneath it to which a Producer is assigned. Distributor will be responsible for assigning Compensation Levels and hierarchies and communicating those Compensation Levels and hierarchies to Phoenix.
